RoadMate 1475T  
Magellan

## [Avoid Traffic Congestion With The New Magellan RoadMate 1475T](#)

### *Subscription free information*

Following the new models in the Magellan RoadMate series, the 1475T provides revolutionary OneTouch favorites menu that takes personally selected addresses and quick searches one click or, should I say, touch away. The system is highly efficient, giving you the possibility of storing multiple bank locations, restaurants or any other destination in the OneTouch favorites menu, after which you can quickly find directions to the closest of the preferred destinations.

The RoadMate 1475T sports a new 4.7-inch, WQVGA, color, anti-glare touch-screen display in an ultra thin chassis. It makes trips a lot more easier thanks to the AAA TourBook listings and Roadside Assistance menu. You won't go in the wrong direction on a highway again, nor miss the exit, since the RoadMate 1475T makes sure you're on the right lane before the next interchange or exit.

It is also equipped with a traffic-enabled device (VPA) that offers subscription free real-time traffic alerts and road congestion reports so you can reroute easily and avoid wasting time in the traffic. If you know how annoying it is to exit the highways in the search for a restaurant or gas station then you'll love the Highway Exit POI that helps you exactly with that. It finds the closest gas stations, restaurants and hotels near upcoming exits.

We all know how important it is to stay focused at the road, not the GPS. That's why QuickSpell with the new SmartCity Search intelligently narrows searches with spell checking while entering addresses. Multi-destination routing is possible with route optimization that lets you plan trips with multiple stops in the order you want or to save time and money taking the most efficient route.

The manufacturer's suggested price for this beauty is \$299.00 and is already available for purchasing online, which is quite a good price point, all things considered.

We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is
